COMPUTER SCIENCE ENGINEERING STUDENT

Aspiring Computer Science Engineer proficient in full stack development (MERN), as well as Java and intermediate knowledge of machine learning. Eager to apply technical skills and a problem-solving mindset to contribute to innovative projects and learn from real-world engineering challenges. Demonstrated ability to quickly grasp new technologies.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript,HTML, CSS
Databases: MySQL, MongoDB
Frameworks & Libraries: React.js, Tailwind CSS, Express.js
Machine Learning: Intermediate-level knowledge of ML

PROJECTS

The web App Where One Can Post Anything

Developed a full-stack web application using React for an interactive front-end and Appwrite as the backend to manage and store diverse user-generated content, enabling seamless content sharing and efficient data handling

VR Games and Image Showcase Website (Frontend)

Built the frontend of a website to display VR games and images, leveraging Tailwind CSS for rapid and responsive styling. Implemented sections for owner descriptions and image galleries

Basic E-commerce Backend

Developed only backend of e-commerce using feb-2024 MongoDB as database used Postman to interact with the Database

Full stack Uber Clone(currently ongoing)

Developing a full stack uber clone using React in frontend and mogodb as database for the backend and Api for realtime map data

EDUCATION & CERTIFICATIONS

BE in ComputerScience (Currently Pursuing)

St Joseph Engineering College
CGPA - 8.6

PUC   2020-2022

Saraswatti PU College
Aggregate - 94%

SSLC   2019-2020

BGS Central School
Aggregate - 69%

Backend development course Certification

Physics wallah online course

EXTRACURRICULAR ACTIVITIES

Participated in Inoventure(2024)
Showcased a innovative product

Participated in Ingenious (2024)
A Business plan Making contest
